Re: Autonomous Vehicle TCP Pilot Passenger Service Quarterly Data Report - February 1, 2020 to April 30, 2020 (Permit Number TCP0038380-P)

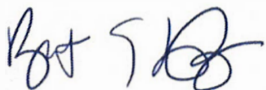

Mr. Naylor:

Enclosed, please find the Quarterly Data Service report on behalf of Zoox, Inc. (Permit Number TCP0038380-P) for Autonomous Vehicle Charter Party Carrier (TCP) Passenger Service. This report is submitted pursuant to Sections 5351 through 5450 of the California Public Utilities Code and Decision (D.) 18-05-043 of the California Public Utilities Commission (Commission). The report covers the period of February 1, 2020 to April 30, 2020.

The report is provided in the required spreadsheet format (enclosed), but Zoox supplements its responses therein for context and clarity, as follows:

- During this reporting period, Zoox provided rides on a limited basis to pre-registered participants.
- All reportable trips took place along pre-mapped routes, in a geo-fenced area with the same start point and end point. Accordingly, vehicles did not: (1) travel from a "starting location when it first accepted a trip request to the pickup point for each requested trip" or (2) log any idling or dwell time between "ending one passenger trip and initiating the next passenger trip".
- The Zoox pilot test fleet consists exclusively of Toyota Highlanders – conventional vehicles with hybrid engines.

Sincerely,

Bert Kaufman
Head of Corporate & Regulatory Affairs
